

SUDHARSANSELVAN T

Java Developer | Backend Engineer | Spring Boot | REST APIs | MySQL | React.js

Trichy, TN, India | +91 63830 15521 | sudharsanselman13@gmail.com | linkedin.com/in/sudharsanselman | github.com/sudharsanselman/

SUMMARY

Java Developer fresher skilled in Java, Spring Boot, REST APIs, Hibernate/JPA, MySQL, Spring Security, and JWT authentication. Built **OrderFlux**, an e-commerce backend system for authentication, product management, search, filtering, pagination, RBAC, and order processing. Familiar with React.js, Git, Docker, Maven, Postman, Swagger, and GitHub Actions.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, C, C++

Backend: Spring Boot, Spring Security, REST APIs, JWT Authentication, Hibernate/JPA, Maven

Database: MySQL, Database Design, SQL Queries, Query Optimization, Indexing

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS

Tools: Git, GitHub, Docker, Postman, Swagger UI, OpenAPI Documentation, GitHub Actions

Core Concepts: OOP, Data Structures & Algorithms, SDLC, Layered Architecture, Exception Handling, Debugging

INTERNSHIP EXPERIENCE

Technical Trainer Intern | Java, OOP & DSA | Viwise Tech Softwares, Trichy

Jun 2025 – Jan 2026

- Supported Java, OOP, and DSA training sessions for 50+ students through coding exercises, debugging support, and programming fundamentals..
- Conducted coding and problem-solving sessions to improve programming logic and technical understanding.
- Reviewed coding exercises and provided feedback to improve code quality, readability, and debugging skills.

PROJECTS

OrderFlux – E-Commerce Backend System | GitHub: <https://github.com/sudharsanselman/orderflux-backend>

Tech Stack: Java 21, Spring Boot 3, Spring Security, JWT, Hibernate/JPA, MySQL, REST APIs, Docker, Swagger, Postman

- Developed 18+ REST APIs for authentication, product management, search, filtering, pagination, RBAC, and order processing.
- Implemented JWT authentication, Spring Security, BCrypt password hashing, email OTP verification, request validation, and global exception handling.
- Designed a layered architecture using Controller, Service, Repository, DTO, and Entity layers for maintainable backend development.
- Improved API usability using pagination, filtering, structured error responses, SQL query refinement, and database constraint handling.
- Fixed Hibernate mapping, enum persistence, schema migration, and database constraint issues during development.
- Used Docker, Swagger, Postman, Maven, Git, and GitHub for API testing, documentation, build management, and version control.

Personal Portfolio Website | Live: <https://sudharsan-profile.onslate.in/>

Tech Stack: React.js, HTML, CSS, JavaScript, ZOHO Catalyst

- Built a responsive portfolio website with reusable UI components, mobile-friendly layout, and Zoho Catalyst deployment.
- Implemented interactive sections for projects, skills, contact details, and profile information to improve user experience and recruiter visibility.

EDUCATION

B.Sc. Computer Science - St. Joseph's College, Tiruchirappalli

2022 – 2025

Adds-On: Java Programming, Data Structures & Algorithms, DBMS, OOP, Python

CERTIFICATION

Java Programming Fundamentals - Infosys Springboard
